### AREAS FOR DEVELOPMENT

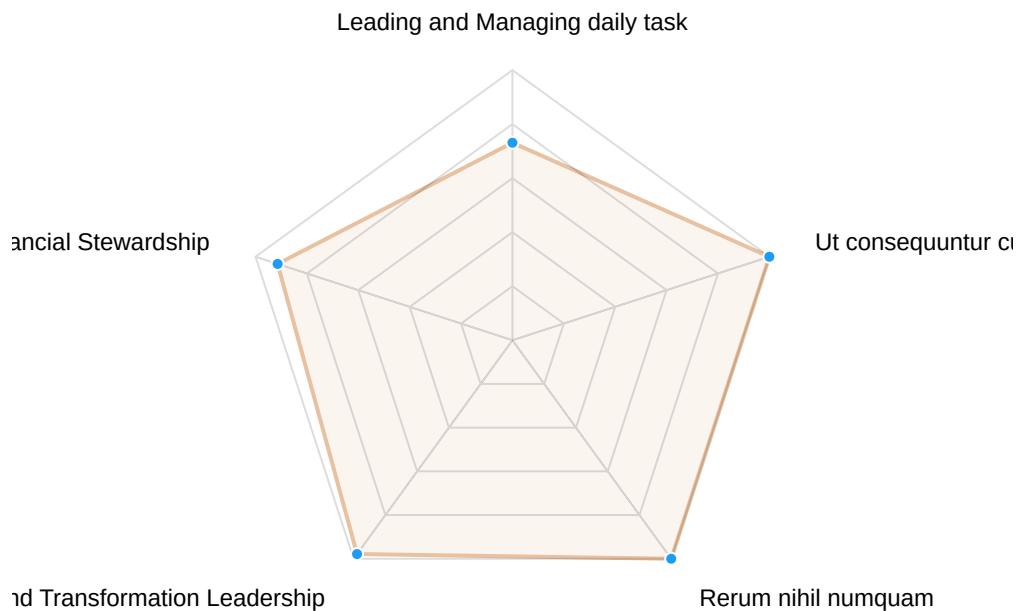

Leading and Managing daily tasks emerges as a primary area for development. ZZparticipant's lower score in this competency suggests potential challenges in effectively overseeing day-to-day operations, delegating tasks, or maintaining consistent productivity levels within their team. This gap could lead to inefficiencies in project execution and may impact the team's ability to meet short-term objectives consistently. While ZZparticipant excels in strategic areas, there may be a need to balance high-level thinking with practical implementation skills. The disparity between scores in strategic competencies and operational management indicates an opportunity to develop a more holistic leadership approach.
